

HACKonFOODS From Research to Impact: Developing Solutions for the Futures of Food Systems

December 5, 2025
from 10:00 AM to 8:00 PM

BOLOGNA

Serra Madre, Le Serre dei Giardini
Address: Via Castiglione 134,
40136 Bologna, Italy

Join us for HACKonFOODS – From Research to Impact: Developing Solutions for the Futures of Food Systems.

A full day of innovation dedicated to redefining the future of the food sector.

We will launch real and current challenges in collaboration with prestigious companies from the agri-food sector: Bolton Food and De' Longhi Group.

We are looking for **teams of researchers** ready to take on these challenges in a full-immersion experience, applying **human-centered innovation** methodologies to generate creative and impactful solutions.

In collaboration with leading companies in the agri-food sector, we'll launch real and timely challenges.

Teams will have **a full day to develop their ideas**. The **winning teams will gain direct access to a mentorship program** designed to further develop the solutions created during the hackathon. **The pathway**, scheduled between the end of 2025 and/or the beginning of 2026, **represents a key commitment for the winning teams, who will be required to actively participate in mentorship sessions** with industry and business experts **to refine and validate their projects**.

WHO IS IT FOR?

Young researchers working on topics covered by [OnFoods](#).

Are you ready to turn research into real innovation for the agri-food system?
